

PLATE XXXIII.

Figs. A and 1-6. *Scirpus thouarsianus*, var. *pallescens*.

Figure A.—A plant, natural size.

- „ 1.—A leaf.
- „ 2.—A spikelet.
- „ 3.—Lowermost glume of the spikelet, seen from the outside.
- „ 4.—One of the flowering glumes seen from the inside.
- „ 5.—A flower.
- „ 6.—A nut of which the reticulation is somewhat exaggerated: all the figures enlarged, except where otherwise stated.

The drawing was made from a plant collected by Mr Moseley in Inaccessible Island.

Figs. 7-12. *Scirpus thouarsianus*, var. *virens*.

Figure 7.—A leaf.

- „ 8.—One of the larger inflorescences.
- „ 9.—A spikelet of the same.
- „ 10.—A flowering glume.
- „ 11.—A flower in a very young state.
- „ 12.—An immature nut: all very much enlarged.

Drawn from a plant collected by Mr Moseley in Nightingale Island.
