

PLATE II.

	Page
Fig. 1. <i>Strophogorgia petersi</i> , n. sp.; natural size,	2
Fig. 1a. ,, ,, two polyps; enlarged.	
Fig. 2. ,, <i>fragilis</i> , n. sp.; five polyps; enlarged,	4
Figs. 3, 3a. <i>Trichoptilum</i> , Kölliker. Through an inadvertence these figures have been engraved on this Plate, they represent a possibly new species of this genus. The very imperfect specimen was taken at a depth of 1900 fathoms at Station 143, off the Cape of Good Hope.
