

- Figs. 2 & 3. { *d<sup>1</sup>*. First dorsal interosseus.  
*d<sup>2</sup>*. Second dorsal interosseus.  
*d<sup>3</sup>*. Third dorsal interosseus.  
*d<sup>4</sup>*. Fourth dorsal interosseous.  
*t*. Fibrous slips connecting the tendons of the second and fourth dorsal interossei, with the heads of the adjacent metacarpal bones.  
*e*. Abductor hallucis.  
*d*. Abductor minimi digiti.  
{ *g<sup>1</sup>*. Flexor brevis pollicis.  
*g<sup>5</sup>*. Flexor brevis minimi digiti (outer head).  
*h*. Adductor pollicis.  
*a*. Adductor indicis.  
*b*. Adductor annularis.  
{ *c*. Adductor minimi digiti.  
*a.b*. Fleshy fasciculus belonging to the palmar layer and connecting the bases of the index and annularis.  
*u.n*. Ulnar nerve, dividing into superficial and deep branches.  
*d.n*. Twig from the deep branch of the ulnar for the supply of the contiguous sides of minimus and annularis.  
*m.r.n*. Medio-radial nerve.  
*d.b*. Dorsal branch of medio-radial nerve.  
*u*. Tendon of flexor carpi ulnaris.

Fig. 4. Dissection of the side of the chest, axilla, and upper arm of the *Cuscus*—left side.

- p<sup>4</sup>*. Pectoralis quartus.  
*r.t.* and *r.t<sup>1</sup>*. Rectus thoracis.  
*p<sup>3</sup>*. Pectoralis minor.  
*p<sup>1</sup>.* and *p<sup>2</sup>*. Pectoralis major.  
*s.c.* Subclavius.  
*s.n.* Nerve to subclavius.  
*cl.* Clavicle.  
*c.d.* Clavicular deltoid.  
*c.* Coracoid process.  
*c.b.b.* Coraco-brachialis brevis.  
*c.n.* Circumflex nerve.  
*m.c.n.* and *m.c.n<sup>1</sup>*. The two parts of the musculo-cutaneous nerve.  
*l.d.* Insertion of the latissimus dorsi.  
*m.s.n.* Musculo-spiral nerve.  
*b.* Biceps.  
*b.a.* Brachialis anticus.
